Here you go...if (God forbid!) Sadie wants the format changed, I will let you know asap.

Energy - Aquifer Exemptions/Underground Injection Control Program

Goal: Receive further policy direction/input from OGWDW to inform future decisions on “complex” aquifer exemption requests.

Background:

Issues/Challenges:

What can OW do in support of the Region’s efforts?

What has the Region done to further the national program?

Contact name and phone number:

Douglas

Thanks on the AE. If not today, just send us the format so we can start the GS and HF papers.

Sounds good Roy. Sadie is reviewing the AE paper, so will try to get that to you by the end of the day. We will plan on getting you the one pager on DB ISR by next Wednesday, 11/26.

Doug,

So –

1. Ron is fine with the one-pager you are writing on Dewey Burdock Uranium ICR – He would like it in draft by next Wednesday, November 26 ???
2. He wants HQ to do the GS and HF papers, but we would like to model them on the format you are using for Aquifer Exemptions. How soon can you send us your draft on AE, or at least a blank Format of the paper so we can get started on the GS and HF papers.

Roy Simon
